

Motorbike Safety Policy

Rationale

ProEd Global School prioritises the health, safety, and well-being of all students, staff, and visitors. Smoking and vaping pose significant health risks and can have adverse effects, particularly on young individuals. As an educational institution, it is our responsibility to create a safe and conducive environment for learning and growth. By implementing a strict no-smoking and no-vaping policy on campus, we aim to promote a healthy lifestyle and prevent exposure to harmful substances.

Purpose

The purpose of this policy is to:

- Safeguard the health of students, staff, and visitors by minimising exposure to secondhand smoke and harmful vaping emissions.
- Create a healthy and clean environment that supports learning, concentration, and overall well-being.
- Educate students about the dangers of smoking and vaping and encourage healthy lifestyle choices.
- Foster a culture of respect, responsibility, and consideration for others' health within the school community.

Guidelines

1. Prohibition of Smoking and Vaping: Smoking, including the use of cigarettes, cigars, pipes, and any other smoking devices, as well as vaping using e-cigarettes or similar devices, is strictly prohibited on school grounds. This includes all indoor and outdoor areas, such as classrooms, hallways, playgrounds, parking lots, and sports facilities.
2. Enforcement: The no-smoking and no-vaping policy applies to all students, staff, parents/guardians, visitors, and contractors while on school property or attending school-related events. Any violation of this policy will result in appropriate disciplinary action in accordance with school guidelines.

3. Education and Awareness: Through our well-being programme, the school will raise awareness about the dangers of smoking and vaping. These initiatives may include seminars, guest speakers, posters, and informational materials aimed at informing students, staff, and parents/guardians about the risks associated with smoking and vaping.
4. Compliance with Regulations: The school will update and adapt its policy as necessary to ensure compliance with any changes in local or national legislation.
5. Communication and Implementation: This policy will be communicated to all stakeholders, including students, parents/guardians, staff, and visitors, through the school's website, student handbooks, orientation programmes, and posted signage around the campus. Its implementation will be monitored and enforced consistently by the school administration and staff.
